Mill list disclaimer:

About this list:

In order to produce large volumes of palm oil derivatives, a much larger volume of crude palm oil is required. This results in a complex supply chain involving multiple plantations, mills and refineries.

This mill list is published in support of Reckitt's transparency commitments. It reflects mills reported as connected to Reckitt's soap noodles and fat blends supply chains during the specified reporting year, based on information provided by suppliers.

The mill list is a snapshot of Reckitt's supply chain mapping for the reporting year specified above and may not represent every mill from which relevant materials ultimately originate. For more information on the level of traceability to mill achieved by Reckitt, please refer to the ESG Data Book.

Reckitt does not purchase palm oil directly from mills. Inclusion of a mill on this list does not necessarily mean that Reckitt has a contractual relationship with, or has independently audited, that mill. Nor does it indicate that all materials produced by a listed mill enter Reckitt's supply chain.

Mill names, group and parent company information, certification status, locations and geographic coordinates are based on information available as at the relevant data cut-off date. Such information may be incomplete, approximate or subject to change. RSPO certification status may change after that date and should be verified against current RSPO records.

Publication of a mill on this list does not constitute an endorsement by Reckitt of that mill, nor a representation that it complies with all applicable laws, certification standards or Reckitt requirements. Mill information is based on data provided by suppliers and information obtained through Reckitt's traceability and due diligence programmes, including work undertaken with external partners. While Reckitt seeks to improve the quality, completeness and transparency of supply chain information, it does not independently verify all information contained in this mill list and makes no representation or warranty as to its accuracy or completeness.

Reckitt updates this mill list annually. Information regarding any apparent inaccuracy may be reported through Reckitt's Palm Oil Grievance Resolution Procedure.

Soap Noodles and Fat Blends Mill List 2025
Total mills = 1821
